ABOUT THE INSTITUTION

National Institute of Technology, Hamirpur is one of the premium institutions of India. It was established in 1986 as Regional Engineering College, a joint and cooperative enterprise of the Government of India and Himachal Pradesh. The institute was declared as the Institute of national importance under the Act of Parliament in 2007. It offers Graduate, Postgraduate and Doctorate Education in Engineering, Architecture, Sciences, Humanities, Behavioral Sciences, Social Sciences and Management. The Institute emphasises on basic and applied research by maintaining close interaction with the relevant industries and organisations. The institute is located in the footsteps of Shivalik ranges and provides a panoramic view of snow-covered Dhauladhar ranges.

ABOUT THE DEPARTMENT

The Department of Humanities and Social Sciences has an interdisciplinary orientation and expertise in diversified fields of Communication Skills, Economics and Behavioral Science in order to cater to the needs of B.Tech, B.Arch. and PhD students of the institute. Faculty members possess a blend of academic and professional experience which facilitates disseminating of knowledge to the students through classroom sessions and independent student activities.

ABOUT THE NATIONAL WORKSHOP ON RESEARCH METHODOLOGY AND DATA ANALYSIS (RMDA 2020)

Research is the systematic and objective process of gathering, recording and analysing data for taking appropriate & meaningful decisions. It connotes patient study and scientific investment, wherein the researcher takes a more careful look at data to discover all that could be known more deeply about the subject under study. Applied research facilitates managerial decision-making and reduces uncertainty. To keep pace with the recent advancement in any discipline, one has to be well versed with the latest developments in research methodology. Keeping in view the importance of research methodology, workshop on Research Methodology & Data Analysis (RMDA 2020) aims to explore the basic dimensions of research and the concomitant need for participants to rethink about the assumptions that underlie historic paradigms of research. The workshop is designed to offer the participants a hands-on approach to conduct research. On completion of the workshop, participants are likely to have developed the skills to review the literature, develop hypotheses, frame research design, identify sampling techniques and comprehend the role and relevance of the tools for data collection analysis and report writing. The five-day workshop will expose the participants to brief theoretical as well as practical inputs. The participants are expected to bring their research problem & data if they wish to work on specific problem during the workshop and at the end they will be able to analyse data independently.

OBJECTIVES, CONTENTS AND EXPECTED OUTCOMES OF RMDA 2020

OBJECTIVES OF RMDA 2020

- To provide an overview of Contemporary Research Methodology & Review of Literature.
- To provide the platform for discussion on the methodological requirements of research and to simulate & capture new approaches.

About the Workshop

Innovation and research is the backbone of National development hence to accelerate research activities it is necessary to create innovative and research culture in academicians and researchers. Also exploration of new horizons and opportunities in engineering research is essential for strengthening the research skills and development of ideas. Hence, keeping in mind the significance of R & D and innovation we are trying to focus on broader objective to strengthen the research skills of academicians, researchers and engineers. Another objective of this workshop is to develop an art and skills of writing technical paper and research proposal. To enhance the knowledge of the faculties about project funding and explore innovative aspects, IPR, patents, trademarks, trade secrets and commercialization of it. In research and innovative practices morals and ethics are also of more significance hence in this workshop we will also focus on innovative ethics, plagiarism and copyrights.

Topics

1. Research Paper Writing
2. Research Funding
3. IPR and Patents
4. Selection of Research Topic
5. Project writing and funding agencies
6. Research Ethics

ABOUT SIMS

SIMS was established with the motto of "Prosperity through Innovative Management" by the Founder Chairman Shri. MJF Ln. Leo Muthu. The offers the post graduate programme leading to the award of MBA degree by the Anna University, approved by AICTE and the government of Tamilnadu. The department is well equipped with modern facilities such as syndicate room, seminar hall, computer center, department library, audio and video facilities and a central library with latest books, national and international journals. The highlights of the institute are that, it was rated with prestigious AAA status by Career 360 during 2017, and also categorized as A+ Grade Institution by Business India, A3 rated B school by AIMA, Platinum category for past 4 years by AICTE-CII survey, Business Today India's Best B-School survey rated among Top 150 B-Schools, and Business Standard rated our institution with A4 category. We engage our students in various societal development activities to provide them the overall exposure to world of business and management by regularly organizing National level seminars, International conferences, and Conduct Workshops and International Student Exchange programs. We also arrange Faculty Development Programs and Workshops sponsored by AICTE and leading well known management associations.

ABOUT THE PROGRAMME

Case study is a process or record of research in which detailed consideration is given to the development of a particular matter over a period of time. A particular instance of something used or analyzed to illustrate a principle. A case study approach is used extensively because cases are a proven, effective method for enabling students to understand managerial concepts and frameworks. Case studies provide an appropriate level of information for students to understand a particular industry and its related business issues and to analyze these issues both quantitatively and qualitatively. Cases also establish an important foundation for class discussion. This work shop will cover various elements of case selection, preparation, teaching notes, delivery, and evaluation as they apply to the case class room.

LEARNING OBJECTIVES

- To learn effective case analysis process and methods.
- To understand the identification of case issues and solving techniques.
- To understand how to develop case study in different situations.
- To implement the class lecture and workshop for the betterment of teaching community.

EXPECTED OUTCOMES

- Knowing the methods of case analysis is in different functional areas.
- Case teaching enables to improve the faculty efficiency.
- Faculty can develop case and publishing in refereed journals.

FOR WHOM : Faculty of Management and Engineering disciplines.

ABOUT THE WEBINAR

As technology rapidly advances it is important that educators and technologists not only make resources available, but that they also coordinate efforts to insure cognitive development of students in combination with these resources. When you advance to the point in your education where you will take on a major research project or a thesis project, you will need to know how to write a research proposal. A research proposal will provide your instructor with your research topic and your research plan so he or she will know precisely what you are doing and how you plan to accomplish your task. You will also be required to write a research proposal when you work in a research-oriented career. It is common to have to write research proposals to acquire funding for various research projects. Creative writing of research proposals and articles is a grueling process and that is made harder by various challenges. The webinar is also utilized among youth for empowering their unique potentials, skills and capacities.

INTRODUCTION

There is consistent demand on academicians to produce good quality research papers. This demand is institutionalized in the requirements laid down by the regulatory bodies and the strategic attempts by educational institutions to manage research. Keeping this demand in mind, the objective of this workshop is to unpack what constitutes a great research paper and outline the pleasures and pitfalls of writing it. With the help of some characteristic examples and activities, the workshop will serve as a practical guide to the art of writing papers.

WORKSHOP CONTENTS

- Generating and choosing an idea
- Connecting with the reader
- Literature review
- Making claims and supporting them
- Drafting a research paper
- Citations and referencing
- Abstract, title and keywords
- Review papers
- Qualitative and mixed methods research
- Unique/contemporary methodologies in research
- Plagiarism and ethics of paper writing
- Top reasons for rejection of papers
- Journal selection
- Manuscript communication to journals
- Replying to reviewer comments
- Ensuring maximum downloads of papers
- Building research networks

TOOLS AND TECHNIQUES

Lectures, activities, quizzes and discussions
